BARIATRIC TRAPEZE BAR WITH STAND

700 LB. WEIGHT CAPACITY

The Dynarex Bari+Max Trapeze Bar with Stand is designed to help larger individuals with limited lower-body mobility to safely shift themselves in bed for increased comfort and reduced risk of pressure injuries. The overhead triangle grab-bar can be easily adjusted closer to or farther from the frame. The free-standing device is made from durable steel for ultimate stability and features tool-free construction for easy assembly.

- Designed to help bariatric patients shift positions while in bed
- Easy to adjust with sliding bracket
- Features rear wheels for added mobility
- Weight capacity of bar: 700 lb.
  Can assist an individual ≤ 1000 lb.
- Limited Lifetime Warranty
- HCPCS: E0912
