STANDARD SLINGS

Seat/Back

ITEM 10750-10752

Dynarex Standard Slings are designed to support safe and comfortable patient transfers when used with hydraulic patient lifts. Each sling features a durable metal weight-distribution bar for secure attachment of chains or straps. Ideal for use in both home care and professional care settings.

- Designed to assist with patient transfers from beds, wheelchairs, and other surfaces
- Durable metal bar offers secure hookup to chains or straps
- Washable material adds convenience for easy maintenance
- Not made with natural rubber latex
- 10750MS, 10751MS: Breathable mesh fabric supports comfort and air circulation during use
- 10750CN, 10751CN: Constructed from cotton canvas for reliable, repeated use
- HCPC E0621
