

# FLUID DISPOSABLE BAG

## ITEM 4722

Dynarex DynaSafety Fluid Disposal Bags are designed to reliably contain solidified liquids — including bodily fluids and potentially hazardous spills — for safe, effective cleanup. The high-quality Bags are made from durable PE-coated paper materials for optimal leak-resistance and feature a twist-tie at the top for secure closure. Dynarex DynaSafety Fluid Disposal Bags are intended for use with absorbent powders and biohazard scrapers.

- Designed for safe containment of solidified bodily fluids and spills
- Durable PE-coated paper bags provide enhanced leak-resistance
- Features integrated twist-tie at the top for secure closure
