

NEEDLELESS PRN CONNECTORS

Dynarex Needleless PRN Connectors provide a secure, needle-free access point for use with IV administration sets. Each connector features a needleless male adaptor to help reduce the risk of cross-contamination.

- Designed for use with IV administration sets for a safe, needle-free site
- Needleless male adaptor minimizes the risk of cross-contamination and infection
- Constructed from premium plastic materials for optimal reliability
- Sterile, non-pyrogenic, and non-toxic for optimal safety
- Not made with natural rubber latex or DEHP
